

LET'S **KEEP** FINISHING THE FOUNDATION!

FISHERS OF MEN MINISTRIES INC.

Refuge Ranch on the Grow

God's faithfulness, and your generosity, have brought us ever closer to the goal of funding the foundation for the new main house at Refuge Ranch. **We are over half way there!**

Rebar columns are being raised towards the heavens and tied into the foundational rebar in order to begin framing and pouring the foundation of the new main house; just as our prayers are raised towards the heavens and our hearts tied into God's Word in order to reframe our children's lives as we pour His love and truth into their hearts through daily family life.

God has called us (Victor and Julie Zaragoza) to a unique ministry in that we do not run a children's home....we lead a family. Since Genesis 1, the family has been God's plan to most effectively do life, learn, grow and know Him. We firmly believe that the family is also the best context in which to heal and be restored.

However, families require houses. As our children grow (we now have 6 teenagers and 3 young adults in the house, as well as the other 7 kids) and require more space (we used to be able to put a crib just about anywhere!), the dream of a larger house at Refuge Ranch is now a necessity! We also believe that as Refuge Ranch grows, the Zaragoza family will grow! Thank you for partnering with us in giving these, our children, a family... and this family a home.

Finished Foundation (and underground drain system)
