### How many people does it take to move a missionary? (aka: My visit to Indiana)

The Lord afforded me a blessed 10 days in the state of Indiana at the end of February. One of the reasons why the visit proved to be such a blessing, was due to all of those that participated to make it possible! During my time in Indiana:

- ◆ Four different planes with two different airlines carried me **3209 miles**
- ◆ **Seven** different **individuals**, besides a borrowed car from Anderson University, **drove me 358 miles** around the state
- ◆ **Five** gracious **families opened the doors of their homes**, while Anderson University lent me a beautiful apartment for two nights
- ◆ **Two different churches** allowed me the privilege of sharing God's work here in Mexico with their congregations and youth group!
- ◆ I thoroughly enjoyed time at my alma mater, **Anderson University**, where I visited **8 classrooms**, with more than **6 department heads**, a **Spanish chapel service**, and the opportunity to **record a short video**, "My AU Story"
- ◆ We even took to the airwaves for an **interview** on the local **radio** station in Logansport, IN

We thank the Lord for moving hearts to move me to share about how He is moving in Mexico! May He move each of you to participate in His work, whether through your prayers, giving or joining us for a time in Mexico!

### A Great Work Team Finishes the Foundation

The Lord used an incredible group of high school seniors from Christopher Dock Mennonite High School in Pennsylvania, their chaperones and "Dave (Moyer) and his machines (and drivers)" during the first week of January to transform and push forward the construction on the main house by not only finishing up the foundation, but backfilling it, too! They even painted and installed our old, and some new, playground equipment, giving our kids a place to play again! Thank you!
