

Fishers of Men

The Two Facets of the Ministry

(1) Evangelistic Medical Mission Crusades

Fishers of Men, through free medical and dental clinics conducted under the leadership of Kevin & Yueminis Gonzales, provides much needed medical attention throughout Mexico, while offering the hope and help that come through a personal faith in Christ. Volunteer doctors, specialists, dentists, nurses, dental hygienists, paramedics, optometrists, physical therapists, chiropractors, children's workers, hair stylists and general volunteers meet the physical needs of the local population, while sharing the hope found through salvation in Jesus Christ.

Evangelistic Medical Mission Crusades (EMMC) occur regularly throughout the year, ranging from one to 10 days in length, with Christian volunteers from Mexico and other countries dedicating their time and talents to serve the Lord. Each crusade takes place in partnership with a local missionary or church in order to ensure effective follow-up and discipleship.

(2) Refuge Ranch

Refuge Ranch, located in central Mexico, serves as the site for a new forever family for children in need of such love and care. Committed to providing the children with the love, support, structure and freedom found within the context of a Christian family, Julie Claassen, with the help of support staff, seeks to raise each child as her own.

Since the founding of Fishers of Men in 2003, 25 children have called Refuge Ranch their home.

Everyday family life provides each child with the opportunity to come to know and experience the reality of the love of Christ that can transform hearts and habits, enabling them to fulfill the Lord's good, pleasing and perfect will for each of them. Currently, 10 children live at Refuge Ranch.
